DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-19 are rejected under 35 U.S.C. 102(b) as being anticipated by JP (2000-237887).

JP discloses a device for pressing and laser beam processing on a workpiece. The parts are brought into contact and rotated about a shaft using a servo motor. A roller pressing the overlapped part and a laser beam machining head (mounted tool) is supported on a main body. This whole assembly is integrated with a robotic arm. The workpiece (automobile panels) is centered and irradiated.
